# **Understanding the IBC Fire Alarm Requirements 2018**

---

## **Course Description**

This seminar is beneficial for designers of fire alarm systems, project managers or lead installers responsible for fire alarm systems and AHJ's responsible for fire alarm system plan review and acceptance testing. It is also useful for those preparing for the NICET level III and IV computer-based test. Discussions and practical exercises are used to improve the participant's knowledge of and how to use the building and fire codes in determining fire alarm requirements

## **Course Objectives**

Upon completion of this seminar, each participant will be able to identify the fire alarm requirements of the 2018 International Building Code by use group and occupancy load.

## **Who Should Attend?**

Individuals preparing to take a NICET Fire Alarm Systems test (any level) Fire and Building Inspectors / Plan Reviewers / Contractors / Designers

## **Materials We Provide**

- Student workbook

## **Materials Students Provide**

- Students should bring the edition of the IBC for the course you are attending
  - Calculator, pencils, and paper

**Participants must attend the entire seminar to receive 7 contact hours, 0.7 CEU's and 7 CPD's**
